

Autoadapt Carolift® 90

A fixed wheelchair hoist with both powered lift and swivel.

The Carolift 90 is a wheelchair hoist designed to lift mobility devices weighing up to 90 kg into the boot of a vehicle. Swivel and lift is operated via a hand held control.

To achieve a perfect fit the Carolift 90 can be cut in both height and length upon installation. For vehicles with a sloping boot door the hoist can be folded down in between uses.

Quick facts

- Powered lift and swivel
- Foldable
- Height and length can be adjusted by cutting
- Flocked surface treatment provides pleasant grip in both hot and cold weather
- Suitable for both left and right side installations

Specifications

POWER SUPPLY 12 V
 LIFT CAPACITY 90 kg

To guarantee your safety Autoadapt products are designed and tested according to current directives and standards.

NOTE! A universal mounting bracket is included. The docking device is ordered separately.

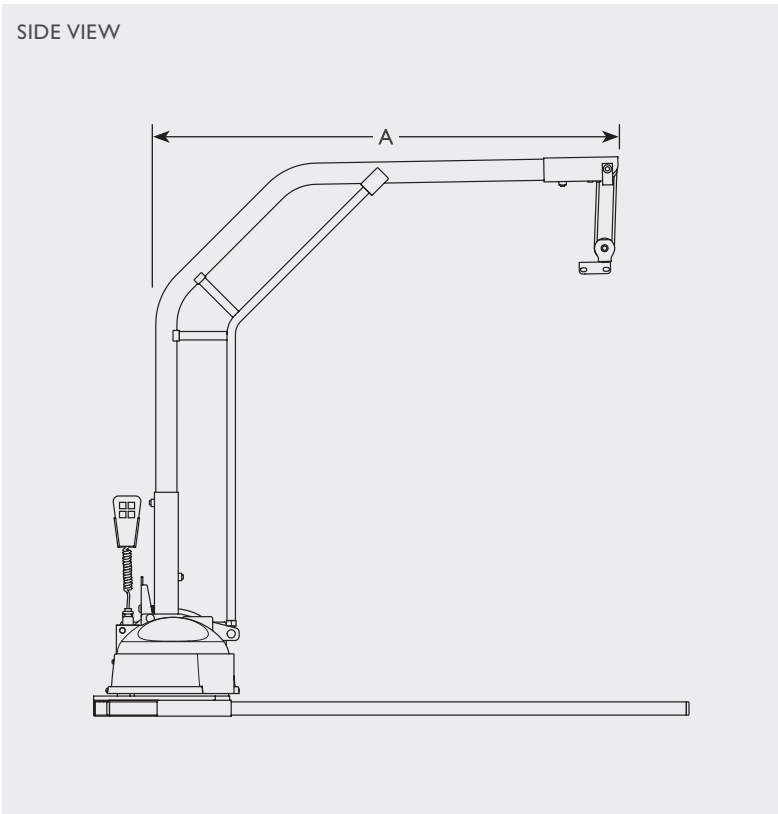

Autoadapt Carolift® 90
