

Tri-Wheel Wheeled Walker

'Light touch' hand braking system

Height adjustable handles

Lightweight frame

Compact folding design

Large 203 mm (8 inch) wheels

Anatomical handgrip

Parking brake

Removable basket with tray

Large vinyl bag

Excellent manoeuvrability

Ideal for negotiating tight spaces, the Tri-Wheel Wheeled Walker is designed for enhanced manoeuvrability and smaller turning radius, enabling users to navigate obstacles and doorways otherwise impassable with a standard four wheeled model.

The lightweight frame features an easy fold mechanism for transport and storage. Height adjustable handles include light touch handbrakes and lockable park brakes for added security when stopped or for transfers.

The large 203 mm (8") solid wheels are puncture free and work well on all surfaces. The Tri-Wheel includes a large vinyl bag and easily removable front basket with tray.

Folded, the walker fits easily in any boot or even the backseat of most cars.
