

JAY[®]

J3 CUSHION

≡ Anatomically designed for customisable pressure reduction and positioning.

Now available with ROHO[®] AIR CELL BLADDER

Pre-contouring

Provides pressure reduction, positioning and stability

Positioning Capability

Provides proper positioning for postural needs

Tension Reduction

Tension-reducing materials maintain superior pressure reduction

Microclimatic Material

Allows the passage of air, heat and water from the user

Segmentation

Helps localize change to minimize instability and the spread of tension.

Hydrostatic Force

Equalizes loading forces to reduce peak pressures.

J3 CUSHION

The J3 cushion is designed with careful consideration for the Science of Seating.

- ≡ The result: A cushion that features outstanding pressure distribution, reduced surface tension, heat and moisture dissipation, and optimal stability. Listed below are the technologies incorporated into the new cushion design.

JAY Optiwell™ Technology:

- Optimised Pelvic Loading Area (PLA) design allows the clinician to customise for the client’s unique needs to either load the trochanters or float the pelvis

ROHO® DRY FLOATATION® Air Cell Technology:

- Air filled PLA inserts optimise peak pressures without sacrificing stability or positioning
- Single Chamber
- Dual Chamber

Factory Filled & Field Variable Fluid Inserts:

- Factory Filled for symmetrical postures and stable conditions where fluid volume is pre-established and standard
- Field Variable for more individualised evaluations to determine desired fluid volume and/or to accommodate changing needs

New Cover Technologies

- Patent Pending technique reduces surface tension in the cover
- Microclimatic cover option reduces heat and moisture build-up for healthier skin
- Improved “comfort layer” provides immediate and long term comfort
- Universal cover allows positioning pieces to be added at any time

Quickie Bundling:

- The J3 can be ordered and shipped complete with a variety of Quickie manual and power chairs
- Complete clinical solution when combined with a J3 Back

SPECIFICATIONS

JAY J3 Cushion	Standard	Deep
Weight - Fluid bladder	2 kg	2 kg
Weight - Air bladder	1.5 kg	1.5 kg
Product Width	31 - 61 cm (12" – 24")	36 - 61 cm (12" – 24")
Product Depth	31 - 61 cm (12" – 24")	36 - 61 cm (12" – 24")
Product Height	10 cm (3.75")	11 cm (4.25")
Weight Capacity	225 kg	225 kg
Cover Options	Microclimatic 3DX™ Spacer Fabric, Stretch and Incontinent	
Warranty	2 years	2 years
TGA	145061	145061
