# VICAIR<sup>®</sup> ADJUSTER 02

## EQUAL PRESSURE DISTRIBUTION AND PERFECT SUPPORT FOR THE ASYMMETRIC BODY

Total immersion for equal pressure distribution | Support IT-coccyx area | Managing pelvic asymmetry

Pre-ischial bar prevents sliding forward | Converts shear into normal forces

**Thigh support** 

# An individual solution for asymmetry, even the extreme kinds

## Total immersion for equal pressure distribution

# **Prevents sliding while** minimizing shear

The Adjuster O2 is extremely suitable for use with asymmetric body contours and amputations. It automatically manages small obliguities and is individually adjustable to support more extreme asymmetry. When you're looking for a high comfort level, optimal skin protection and stability: the Adjuster O2 is always a safe choice. The design allows total immersion to equally redistribute pressure and prevents sliding forward. 100% machine washable and breathable, for optimal hygiene and perfect temperature and moist regulation. As a result the Adjuster O2 offers you optimal protection against skin breakdown.

### **PRODUCT PERFORMANCE**

Skin protection / Anti decubitus	*****
Pressure redistribution	
Shear reduction	
Micro climate control	
Impact & vibration damping	

Auto adjustments

Positioning	
Lateral stability	
Frontal stability	
Sliding prevention	
Allows manual adjustments	
Allows easy transfers	

Mid height zip closure for easy adjustment when client is seated, and to increase cushion immersion (Boxing Effect)

#### **USED WITH**

Hemiplegia (CVA), amputations, foot propulsion, kyphosis, pelvic obliquity/ tilt/rotation, Spina Bifida, spasms, Fibrodysplasia Ossificans Progressiva (FOP)

TECHNICAL SPECIFICATIONS							
Height	6 and 10 cm						
Average weight	534-769 grams						
Max. user weight	250 kg						
Machine washable	60°C max.
