

Male Urinal Standard with Lid

Sturdy handle

Attached lid to prevent spills and reduce odour

Graduated markings to 1000 ml

A lightweight urinal bottle with lid attached designed to help prevent spills.

Ideal for bed bound or immobilised males; and especially useful when there is little time between the urge to urinate and the ability to reach the toilet.

- lid attached to the bottle; designed to help prevent spills
- lightweight translucent bottle, free of sharp edges inside and out
- graduated measurement markings up to 1000 ml, to accurately measure liquid quantity
- sturdy grip for easy hold and handling
- durable and easy to clean and disinfect (autoclave at 135°C or sterilise in boiling water or with steam)
- can be used when seated or standing, in several alternative positions
