

Invacare® | **Matrix® Elan Headrests**

Adjustable support with comfort

**matrix**  
SEATING SERIES

Trusted Solutions,  
Passionate People

**INVACARE**  
Yes, you can.®

The elegant *Invacare Matrix Elan* takes our seating range to the **next level** with its **compact, lightweight** and **adjustable** design. The headrest offers **superb support** and **comfort** and compliments a full range of paediatric through to adult applications. Key features include:

- **Highly adjustable hardware**
- **Range of pad options**

### Highly adjustable hardware

- The innovative hardware on the Elan headrest has **six points of adjustment** to provide infinite positioning opportunities, including a **swing away function**, to meet user needs
- The headrests can be set up **quickly** and **effectively** with a **single tool** while the **multi-disk locking** feature provides superior holding strength and reliability
- The **tool-less adjustment levers** make it easy to change the position of the headrest
- There are two post options available, the **standard** adult (380 mm) or the **mini** (280 mm), which can be **fitted retroactively** to **Matrix** receivers and are compatible with a number of other headrest receivers on the market

## Range of pad options

### 3 Ellipse pad options

Can be formed to fit the shape of the users head for posterior and lateral support. Available in 3 sizes: 150 x 90 mm, 250 x 130 mm or 360 x 130 mm.

### 2 Occipital pad options

Provides contoured support to the occipital and sub-occipital areas of the head. Available in two sizes: 230 x 180 mm or 310 x 200 mm.

### 4-point support

Provides 4 points of support to the occipital and temporal areas of the head. Available in size 280 x 260 mm.

## Features

### 2 tailored cover options

The standard pad cover (Startex fabric) comes with a dual zip and is moisture resistant and breathable. There is also the option of an infection control cover (reverse Startex). Both cover options are easy to remove.

### Dual density foam

The high density moulded foam provides **immersion, comfort and protection** for the user and prevents bottoming out. The *Invacare **Matrx*** pads are **45% lighter** than most other pads on the market and surround the edges of the backing plates.

### Tool-less adjustments

- 1 Adjustment levers allow easy position changes. Fixed screws provided if set position desired.
- 2 Attachment knob has a slim, ergonomic design to allow easy headrest removal or height adjustment.

### Interface insert

An interface insert is available to allow connection to the *Invacare **Flex 3*** headrest receivers.

### Multi-disk locking feature

The innovative locking feature provides superior holding strength and reliability.

### Adjustable aluminium plates

Can be formed in order to meet the needs of the user on all pad options.

## Family of seating products

Invacare can now offer a complete rehabilitation solution: cushion, back support, belt/harness and headrest.
