Comfort is king

Corpus®, our most ergonomic and capable power wheelchair seating system, was designed to configure to your body. Biomechanically optimized power positioning enables functional movements while supporting your optimal position throughout the day.

Dual density backrest foam promotes greater surface area contact while the contoured Ergo seat pelvic well insert can help pressure redistribution and reduce peak pressures. STRETCH-AIR® covers offer a breathable, moisture-resistant fabric material to enhance comfort and help protect underlying foam.

Swing-away knee supports

The new swing-away knee support, for use on Corpus VS legrests, are 75% lighter than the single-post design and offer support through the ActiveReach and standing sequences. Thanks to convenient on-chair storage along the chair rail, they are easy for end users to add or remove as needed.

Reach for more

ActiveHeight™ and ActiveReach™ combine seamlessly to give you the ultimate advantage in accessing your environment. Seat elevation with integrated forward tilt creates the most innovative, functional and stable seating solution on the

market today. With up to 14” of vertical seat adjustment and 45° of ActiveReach forward tilt capability, the F-Series empowers you to reach for more and go further faster with new elevated drive speeds of up to 3.2 mph.

Small footprint, big impact

The F3 Corpus offers the smallest footprint of the F-Series front-wheel drive power wheelchairs. Its compact size and agility allows users to easily maneuver in and out of tight spaces. The optimized battery weight distribution, lower center of mass and fully adjustable ComfortRide suspension improve stability while traversing inclines or declines. Experience the enhanced functionality of the F3 by combining outstanding chassis performance with Permobil's industry-leading Corpus Seating System offering 12" of ActiveHeight and up to 30° of ActiveReach forward tilt technology.

Strength and stability

Power meets performance on the F5 Corpus with a 7.5 mph top end speed and upgraded ComfortRide Pro suspension. All-wheel independent, fully adjustable, oil dampened shocks provide the ultimate in ride comfort while helping to reduce vibrations that can transfer from terrain up to user. Experience enhanced vibration reduction driving in all seat positions including an unprecedented 14" ActiveHeight seat elevation. Climb and reach higher with increased obstacle negotiation, exceptional motor torque and enhanced stability allowing up to 45° of ActiveReach forward tilt functionality. Standard performance options include aggressive tread tires and caster mud guard protection.

F5 Corpus

Stand without compromise

We combined all of the performance features of the F5 Corpus with superior power standing functionality. Fully programmable standing sequences allow user position to be optimized using supine, semi-reclined or sit-to-stand techniques. Further customize standing positions with adjustable chest support, moldable knee blocks and power articulating footplates. From face-to-face interactions to improved health outcomes, the F5 Corpus VS empowers you to stand with confidence.
